

Open Call for Partners

Superpowers Creative Technology Workshops are a workshop series created by Codasign to teach kids and young people how to use tools like coding and electronics in creative projects. We are partnering with museums and galleries across the UK to deliver these workshops. The project is part of the Digital Makers Fund which is funded by Nesta and Nominet Trust, in partnership with Autodesk. The Digital Makers Fund aims to help inspire a generation of digital makers - young people with the skills, confidence and motivation to make, not just consume digital technologies.

The workshop content will contain a combination of digital making tools and skills: Scratch; MaKey MaKey; Processing; Arduino; conductive paint; and conductive sewing. All the projects created in the workshops will have a creative focus.

We are creating a programme of workshops to target the following audience segments:

- Families with children aged 6-12 years old
- Young people aged 12-18 years old
- Primary school groups, KS2 (7-11 year olds)
- Secondary school groups, KS3 (11-14 year olds)

The workshops will be open to people with all abilities and accessible to all.

We currently have five partners on board and we are aiming to get an additional five partners onboard to join the project. We will strive to make the locations of these as diverse as possible.

Our current partners are:

MK Gallery

Phoenix
Cinema Art Café Bar

Project
Ability 

We are looking for partners who meet the following criteria

Located around in the UK in the areas:

- South West
- North East
- North West
- Wales
- Scotland (not in Glasgow)

We are creating for organisations who have:

Resources

- Physical space to host workshops
- Digital tools for making (optional)

People

- In-house marketing and PR support
- In-house technical support (e.g. AV, wifi)
- Support staff during the workshop sessions
- Access to curatorial and collections knowledge

Content

- A wider arts or culture programme to draw from or link to

Strategy

- Organisational buy-in to develop their creative technology offering

If you would like to find out more or discuss becoming a partner on the project please email info@codasign.com.
